

RAIL INFRASTRUCTURE

【MAIN APPLICATIONS】

● Power

- Steel Column Flange Stop
- Stationary Beam
- Overhead Line Bracket - Band Etc.

● Signal

- Automatic Train Stop (ATS)
- Impedance Bond
- Switch Machine
- Electric Contacts of Control Panel
- Etc.

● Track

- Fishplate/Insulated Fishplate
- Mechanical Operated Point
- Rail Brace
- Anti-derailing Guard

● Construction

- Railway Station Equipment
- Station Building Roof
- Soundproof Wall Etc.

Connecting Plate

Fishplate Bolt

Fishplate Bolt (in the UK)

Switch Adjuster of Point

Rail Brace

Anti-derailing Guard

Automatic Train Stop (ATS)

Steel Column Flange Stop

Beam

Electric Contacts

Movable Bracket Band Stop

Impedance Bond
